

My Name:

**Citation:**

To be a responsible writer you ***must*** give credit to other researchers and acknowledging their ideas. You avoid plagiarism by quoting “ ” words and ideas used by other authors. This also allows your reader to track down the sources you used in your paper.

**Anatomy**

(What does it look like? Color, size, shape, etc.)

**Habitat**

Where does it live? What biome is it from?

**My Source (Citation):**

(Where did you find your information?)

**Range**

How did it get here? Is it in Washington yet?

**Enemies/Predators**

**Invasive Species Name**

- English:
- Scientific:
- Lummi Language:

**Reproduction**

How does it have babies?

**Diet**

What does it eat?

**Interesting facts:**

### BRAINSTORM:

Share What You Know

Draw a picture of your ideas, and label them:

---

What sounds interesting, cool and fun about these topic (s) /  
idea (s) ?

---

---

---

---

Facts about the topic (s) /idea (s):

---

---

---

---

List pros and cons of your research topic ideas. Why might you want to research this idea/topic? Why not?

---

---

---

---

---

Now, narrow down your ideas/topics. Choose two (2). What are they?

---

---

Compare & Contrast these idea (s) / topic (s)

Comparisons:

Contrasts:

--

--

Decision time! What is your topic for your research project?
